

COST ACTION CA22138

Training school

Legislation and Management Aspects of Post-mining Activities

23 – 27 March 2026, Torino, Italy

Main topics:

Overview of legislative frameworks for mine closure and rehabilitation
Management of post-mining risks
Planning and managing the post-mining landscape
Technical training in GEE & QGIS for mine closure monitoring

What can you expect?

Intensive professional training
Practical workshops and excursions
Discussions with industry experts
Opportunities to establish valuable connections

Who should participate?

The Training School is suitable for PhD students and young engineers, who wish to deepen their knowledge and gain valuable skills.

Pre-registration phase for trainees:

By registering your interest **by 15 February**, you will be among the first to receive updates on the final registration process, the full programme, and more.

Register here: **<https://forms.gle/MlkUy8yef32omGTX6>**

There is no registration fee. The meeting language is English.
Participants will receive a certificate upon successful completion of the training school.

A limited number of travel and accommodation grants will be available to support selected participants. Those selected participants will be notified by 21 February and will receive specific instructions on how to register via e-cost and how to proceed. Applicants who will not receive a COST grant may receive an invitation and may participate with their own or their institution's funding.
